

ELEMENTARY SCHOOLS

As a result of District engagement, the following planning assumptions were made at each campus to ensure parity between school sites.

Kindergarten Classrooms

As part of the site plan proposals, Kindergarten is planned as an all-day program at each school site. Kindergarten classrooms will be reconfigured or newly constructed depending on site constraints and organization to comply with the California Department of Education's recommendations. Each classroom will have access to student restrooms and a shared workspace for teachers, for a total of 1,350 square feet. Additionally, the Kindergarten play area will be appropriately separated from the rest of the campus with a secure fence and will have 1,200 square feet of dedicated shade.

Enrichment Classrooms

A minimum of four Enrichment classrooms are planned at each school site. An Art Lab is included to promote access and exposure to the visual arts. A STEAM/Science Lab is included to promote hands-on, project-based learning for Science, Technology, Engineering, Art, and Math related activities. A Music Classroom is included to promote access and exposure to performing arts. A Yoga/Fitness Classroom is included to promote student wellness.

For more information about elementary school spaces, refer to the Educational Specifications.

LOADING STANDARDS

All school sites were planned for the 2028/2029 school year.

The following loading standards (per classroom) were used for planning purposes:

	EUSD Loading	State Loading
K-3 rd	24	25
4 th -6 th	28	25
SDC (incl PK)	12	13
